Chat with all your contacts – fast and easy Official Facebook Messenger App All the best free apps you want on your Android UC Browser Mini for Android Fastest Browsing The excellent experience of social networks always on your Android device Download wallpapers, ringtones, and apps It's a very good app, I love the way they do it, although there may be some great , or small improvements in this game. So here are some suggestions; Maybe when you do slime and things, make it more realistic, rather than making it stay still, such as making more movements or moving around the bottle with an activator and other things. It would be very nice if you can do this, I also wondered if maybe and make a little virtual store where real people can buy thin with coins, it's just a suggestion, although it would be very nice if you could do this. I also wondered if you could make different shapes of the containers, or when you are in place to play with mucus, such as large or small, or perhaps the colors of the containers different, also wondered when you make mucus make more realistic, since the type of graphics looks rigid. These are just some suggestions, but you will be very appreciated if you made them, thank you !!!! This is a very big relaxing game!
