## Ocarina of time 3d heart piece locations

Ocarina of Time has 36 centerpieces scattered across Hyrule. It takes four hearts to form a full heart container, which means there are 9 potential heart containers you can find! This, in combination with the 3 starting heart containers as well as the 8 heart containers obtained from the closing of the dungeons, allows Links Total Health to increase to 20 hearts. Location: Kakariko Village Graveyard Conditions: Learn the Sun's Song (Child) Heart Piece #1: Go to the huge tombstone (tomb of the royal family) and return to the exit. On the left side there are five tombstones right in front of you. The second from the right can be withdrawn. Do this and fall into the hole to find a Redead. Defeat it (freeze it first with the sun song), then stand on the steps and play the sun song again to make a chest appear with a piece of heart. Location: Kakariko Village Graveyard Conditions: Enough Rupees (10 per trench) Centerpiece #2: Once you have a lot of rupees to throw, enter the cemetery between 18:00 and 21:00 (you can talk to the guard at the entrance of Kakariko Village to check the time). You have the opportunity to play Dampé's Heart-Pounding Gravedigging Tour for 10 rupees. Talk to him when he stands in front of a patch of soft ground, pay and see what you find. Most of the time you don't find anything, but occasionally you get rupees. At some point you will find a piece of heart. Unfortunately it is completely coincidental, so you could end up here for a while... Location: Lon Lon Ranch Conditions: Reach Lon Lon Ranch (Child) Heart Piece #3: Go to Lon Lon Ranch as a child and enter the warehouse at the back of the ranch. Pull back the boxes to reach the wide corner where you'll find a hole through which you can crawl. This leads to a small area with a piece of heart in a nest. Location: Gerudo Valley Conditions: Reach Gerudo Valley Heart Piece #4: In the Gerudo Valley there is a huge waterfall in the north. In the middle of the waterfall there is a niche with a piece of heart. There is a ladder to get up there, so the general idea is to fall into the water closest to the waterfall and swim over the ladder. As a child, you can grab the Cucco nearby and swim over. As an adult, you'll probably be more lucky to get to the Gerudo side of the bridge and jump on the solid land, then run into the higher water and jump in. Location: Gerudo Valley Conditions: Reach Gerudo Valley Heart Piece #5: If you stand on the bridge, if you look at the Gerudo side of the bridge and look left, you will see a platform against the wall with a box. Roll into the box to find a piece of heart. There are two ways to get to this platform: 1) As a child, the Cucco and hover it over to the box. 2) As an adult, jump on the similar platform on the Hyrule Field side, and then use the longshot on the box to get over it. Location: Hylia Lake: Reach Lake Hylia Hylia Heart Piece #6: In the Fishing Pond game, catch a 10-pound fish as a child and show it to the Fishing Hole Man to get a piece of heart. Location: Lost Woods Conditions: Acquire the Fairy Ocarina (Child) Centerpiece #7: When you enter the lost forest as a child, go right a screen and then jump to the bottom. Stand on the stump to the right to make two Skull Kids appear. Pull your Ocarina and they let you play along with their songs. If you manage to play three of their songs in a row (which are getting harder and harder), they will reward you with a piece of heart. Location: Lost Woods Conditions: Learn Saria's Song (Child) Heart Piece #8: Enter the Lost Woods as a child and go left one screen. Stand on the stump, pull out your Ocarina and play Saria's song as soon as you buy it. The skull child on the tree trunk in front of you gets excited and offer you a piece of heart for his new friend. This is the sign of a true friend! Location: Back Alley Conditions: Reach the market (child) heartpiece #9: At night, there are many dogs through the streets. If you touch one, it will follow you until you enter a building or leave the area completely. There is a certain dog that we want, the white one that hangs on the blue stand on the market. It is on the left side of the exit leading back to Hyrule Field. Do it follow, then go right a little and enter the back alley between the buildings. Enter the door straight to your left, which is the only one that is open at night. Inside you will find Mamamu Yan, who constantly raves about her little Richard during the day. To bring him back, she will give you a piece of heart. Location: Goron City Conditions: Purchase the Goron bracelet centerpiece #10: On the lowest level of the city, all torches light up with Deku Sticks (and the illuminated torch in Darunia Chamber). Alternatively, you can use Din's Fire. Once all of them are illuminated, the giant Goron face urn begins to spin in the middle. Go to the second floor where you can either throw bomb flowers or bombs into the vase as soon as it gets close. When they explode, when the face coming towards you smiles, you get a piece of heart and some rupees. It can take a while and is very frustrating, so don't feel like you're the only one. Location: Death Mountain Crater Conditions: Reach Death Mountain Crater Heart Piece #11: The wall that leads to the large area at the entrance of Death Mountain Crater is accessible and has a niche with a piece of heart in it. There are two ways you can get it: 1) You can enter Death Mountain Crater as a child and walk straight. If you hit the bar instead of jumping, Link will turn around and climb downstairs. Get the niche and claim your prize, then leave quickly before you run the time (the limit is based on the amount of heart containers you have, making more health the better), you can use this method as an adult Well. 2) The other way is to plant a magical burst at the base of the crater as a child and ride the Magic Bean Plant as an adult. It will eventually lead you into the niche. Location: Kakariko Village Conditions: Reach Top of Death Mountain (or purchase the Hookshot) Heart Piece #12: To get this piece of heart, you have to climb the Impa House (the building in the far southwest of the village of Kakariko). You can get there either by catching a ride from the owl on Death Mountain as a child or by using the Hookshot as an adult to climb first to the house of Skulltula and then to Daspa's house. Once you're up there, jump to the east side, where there's a bar over the fence. Enter the hole in the wall that leads you into a cage in the house with a cow...? and a piece of heart! Location: Market conditions: Buy bombs (child) At the heart #13: During the day, Bombchu Bowling Alley is open and ready to go! The game goes through five different prizes in this order: Bombchu, Piece of Heart, Bombs, Bomb Bag and a purple Rupee (50). If you are playing the game for the price you want, you will have to wait for the price to cycle around again. Location: Hyrule Field Conditions: Acquire Bombs Heart Piece #14: In the southwest corner of Hyrule Field is the entrance to Lake Hylia. Shortly before the entrance itself there are four fences, which form a square. Place a bomb in the middle to reveal a hole. Jump down and buy the piece of heart from the Business Scrub for 10 rupees. Location: Zora's River Conditions: Reach Zora's River Heart Piece #15: The centerpiece is on a pillar located right in the center of the Zora River region. There are a few different ways to get it: 1) You can take the Cucco from the beginning of the area, jump on the nearby platform and release the Cucco at the last moment to tackle, pull up and jump to the heart piece. 2) Use the Boomerang as a child to retrieve it. 3) Use the hover boots as an adult to hover over it and grab them. Location: Zora's River Conditions: Reach Zora's River Heart Piece #16: At the end of the River Zora, near the entrance to Zora's Domain, there is a platform in the corner with a piece of heart. There are a few ways to get it: 1) Bring the Cucco from the beginning of the area, throw it on the groin and quickly grab it before it touches water and flies. Get the highest point near the platform, jump to it, let go of the Cucco at the last moment to grab the bar, and get the prize. 2) Use the Boomerang as a child to retrieve it. 3) Use the hover boots as an adult to hover over it and grab them. Location: Zora's Domain Conditions: Reach Zora's Domain (Child) Heart #17: There are five unlit torches in Zora's domain. 1) As a child, run up to the throne room and light a deku stick, then run down the stairs and light the torch at the corner. 2) Get a new deku stick so you have most of the time and start down the ramp. 3) Next to the shop is another torch, further into the water. 4) In the northern corner there is a torch next to a circle of stones. Light and then quickly go to the waterfall. 5) The last two torches are located behind the waterfall. Stay close to the edge, run in and illuminate it to make a large chest appear. Location: Kakariko Village Graveyard Conditions: Plant a Magic Bean Heart Piece #18: On the left side of the cemetery as a child there is a soft ground. Plant a magic barley and return later as an adult. Drive the Magic Bean Plant onto the bar and roll into the box to find a piece of heart. Location: Kakariko Village Conditions: Acquire the Boomerang as a child (or race Dampé as an adult) at the heart of #19: Inside the windmill is a bar with a piece of heart resting on it. After driving against Dampé in the cemetery as an adult, you come out of the windmill and can jump over the moving platforms to get it. Alternatively, you could have gotten this as a child after acquiring the Boomerang. Location: Kakariko Village Graveyard Conditions: Purchase the Hookshot Heart Piece #20: Once you have purchased the Hookshot, you can compete against Dampé again at any time. If you can beat him in less than a minute, you get a piece of heart. One trick to cut at some point at the end is to use the longshot to cling to the torch at the end of the maze and shave a few seconds from your travels. However, you can do this without the longshot. Location: Kakariko Village Conditions: Purchase the Hookshot Heart Piece #21: If you're an adult, use the Hookshot to get to the roof of Grandma's Potion Shop and then talk to the guy up there and he'll give you the piece of heart. You can reach the roof by standing on the fence directly in front of the windmill. After you purchase the Longshot, you can reach the roof from many other places. This centerpiece can be purchased much earlier in the game when Link first reached Kakariko Village as a child. You can climb on the lookout tower, south, finish and sidestep to the left. This will land you on the fence, which you can then use to climb onto the roof. Location: Hyrule Field Conditions: Acquire the Golden Libra (or Iron Boots) Heart Piece #25: Northwest of Lon Lon Ranch, between Gerudo Valley and Hyrule Castle, there is a tree. As soon as you go to it, the shard of agony will ring, or when you play the N64 version, the stone of agony will tremble. Place a bomb next to it to reveal a hole. Inside, use either the iron boots or the Golden Libra to dive deep into the water and get this piece of heart. Location: Death Mountain Conditions: Plan a Magic Bean Heart Piece #26: As a child, plant a magic leg in the soft ground at the entrance to Dodongo's Cavern. When you return as an adult, you can jump on the bar directly above Dodongo's cave with the Magic Bean Plant, where a piece of heart awaits. Another way to get there is to the bomb flower, which is located directly above Dodongo's caver. Move the bomb flower out of the way, then look away to the southeast (opposite the caver), target and backflip. If done right, you'll land on the platform and get the piece of heart early. Location: Death Mountain Crater Conditions: Learn the bolero of fire, plant a Magic Bean Heart Piece #27: As a child, warp to Death Mountain Crater and plant a Magic Bean in the soft ground next to the Triforce base. Warp back as an adult and ride the Magic Bean to one of the two smoky mountains in the middle of the area that has a piece of heart on it. Location: Zora's Fountain Conditions: No heart #28: When you return to Zora's domain as an adult, Lord Jabu-Jabu is no longer there and a bunch of icebergs are floating around. Jump over them to find a piece of heart on one of them. Location: Ice Cavern Conditions: Acquire some Blue Fire Heart Piece #29: In the far right of the ice cave, which is the same room where you can acquire some Blue Fire and find the compass, there are many stalactites that fall from the ceiling. There are a few spots of red ice and in one of them is a piece of heart. Use Blue Fire to melt it. Location: Zora's Fountain Conditions: Buy the Iron Boots Heart Piece #30: The hotel is located at the bottom of the zora fountain. Use the iron boots to reach the ground floor and collect the centerpiece.
